

Atia Jafrin Akand

Front-End Web Developer

Hi, I'm Atia Jafrin Akand. I'm a professional front-end developer with 1 years of experience. Specializing in creating visually appealing and responsive websites using the latest web technologies like HTML, CSS, JavaScript. Proficient in various front-end development tools and frameworks like Adobe XD, Figma. As a lifelong learner, I'm always exploring emerging tools and techniques to push the boundaries of web development.

Experience

2022-2023

Coders Trust Bangladesh

Project intern

- These are the foundational languages for web development. HTML (Hypertext Markup Language) is used for structuring content, and CSS (Cascading Style Sheets) is used for styling and layout.
- A key language for building dynamic and interactive elements on the web. It's commonly used in conjunction with HTML and CSS.
- Staying updated with the latest technologies and best practices is crucial due to the fast-paced nature of web development.
- Creating websites that work well on various devices and screen sizes.
- Clear communication with clients to understand requirements and provide updates on project progress.
